Small business IT support right here in Grand Rapids

Don't have an internal IT department? No problem, we can handle your small business IT support including server administration, desktop support, strategy, budgeting, and more. Simply put: we can run your IT department so you can run your business.

Headquartered in Grand Rapids, we service all of West Michigan including Grand Rapids, Holland, Muskegon and Grand Haven.

With our Small Business IT Services you will receive:

- › Responsive, friendly, local consultants
- › A small, dedicated team to support your business
- › On-site support when needed
- › Emergency after hours, weekend and holiday support when needed
- › Ability to provide "remote control" support no matter where you are
- › Disaster recovery planning and oversight of data backups
- › Detailed monthly reporting

- › Advanced software agent-based monitoring system
- › Proactive response to hardware/software issues preventing unnecessary downtime
- › Microsoft Patch management

No Long-Term Contracts

No one likes being locked into something they don't want anymore. Our customers can cancel at any time, no questions asked. No termination fees either.
